3 We do not consider that the Bill has been so altered as to require republication

4 The Committee met for the first time on the 29th January, 1935, and concluded its sittings on the 5th February, 1935

5 The more important changes made in the Bill are as follows -

Clause 1—We have altered the figures "1933" to "1935"

Clause 3.—In clause 3 in proposed section 2 (*3*) we have provided that the Collector may not delegate his powers to any officer below the rank of a sub-deputy collector

(*2*) In clause 3 in proposed section 2 (*4*) we have provided that a suit shall include an appeal from a decree only, as appeals from interlocutory and other orders were obviously not intended to be included

We have omitted the latter portion as being unnecessary, as paragraphs v, vi and vii of section 19 refer only to the law in force in Madras which has no application in Bengal

Clause 6.- We have provided in proposed section 6 (*1*) that normally, before a document can be filed, etc, in mufassal courts or in public offices the proper court-fee shall have already been paid We have, however, provided a relaxation of this rule in proposed section 6 (*2*) whereby a court may receive a plaint or memorandum of appeal with insufficient court-fees, but such plaint or memorandum of appeal will not be registrable until a reasonable sum, to be assessed summarily by the court, on account of court-fee has been paid within a time to be fixed by the court This follows, in a modified form, the existing proviso proposed by clause 6 of the Bill as introduced, which we have, accordingly, omitted

Clause 7.—We have recommended the omission of the proposed provisos to clause iv of section 7 The first is otiose, as we propose to omit proposed paragraph viB from clause 7(*5*) We do not consider that the restriction referred to in the second proviso is necessary

(*2*) We have, by a majority, recommended an important change in clause 7(*3*) by providing that, instead of the court, in the first instance, proceeding on the basis of the market-value, as in the Bill as introduced, it shall compute the court-fee chargeable at 15 times the nett profits, we have further provided that if the amount of profits is in doubt, the court may assess them Only when the court cannot readily ascertain or assess the nett profits shall the fee be charged according to the market-value We consider this method more equitable

(*3*) In sub-clause (*5*) we have omitted clause (*a*) of paragraph viA, with the proviso, and have provided in clause 19 of the Bill, by amendment of Schedule II, that a fixed fee of Rs 15 shall be charged in cases of claims of all kinds in respect of joint property

We have further limited the application of paragraph viA to cases where there is ouster in order to assimilate the statute law to the prevailing case law

(*4*) We have, by a majority, omitted paragraph viB as we do not consider the proposed change to be necessary

Clause 8.—The omission of proposed section 7A follows as a consequence of the various changes made by our recommendations whereby valuation is left to be decided by the courts at their discretion

(*2*) We have, by a majority, recommended the omission of proposed section 7B as we think it inequitable that any such court-fee should be paid in Land Acquisition cases

Clause 9.—Proposed sections 8A to 8D have been omitted and re drafted as new proposed sections 8A and 8B

The principal modification suggested by us, and contained in proposed section 8B, is a direction to the court to come to a preliminary finding, at the earliest opportunity, on the question whether a sufficient court fee has been paid on a plaint or memorandum of appeal, and to stay further proceedings in the case until the correct court-fee has been paid or a sufficient security for due payment has been furnished Failing this, the case shall be dismissed We do not consider that these provisions should extend to other classes of court-fees

In proposed section 8A we have provided that further particulars need not be furnished if they already appear in the plaint As other rule making powers have been eliminated from proposed section 35A in clause 17, there is no object in requiring that the form of the statement should be prescribed in statutory rules, and we have remedied this by a small amendment

Provision has been made in clause 12, as re drafted, for the recovery of insufficient court-fees in certain limited instances as a public demand

(*2*) We have provided in proposed section 8E that the court itself and no other authority should hold or direct inquiry into the valuation of suits The reference to the holding of an inquiry by the Collector, in certain cases has, therefore, been omitted

(*3*) Sub-section (*2*) of proposed section 8E has been transferred as proposed sub section (*2*) of proposed section 8F as being more appropriate in that context

We have, however, made an emendation by which it is left to the court to determine what party to the suit should pay for the costs of the inquiry, as we foresee that the original provisions as introduced may operate inequitably

We have further provided that costs may be called for from time to time, so as to avoid the somewhat harsh provisions of proposed section 8 I (*2*)

(*3*) The emendation in proposed section 8F, as originally introduced, and now 8F(*1*) is merely consequential

(*4*) Proposed section 8G has been omitted consequentially upon our decision to restrict the inquiry as to valuation of suits to the courts

(*5*) The changes in proposed sections 8H and 8 I (*1*) are purely consequential

Proposed sub section (*2*) of section 8-I has been omitted as unnecessary as provision for this has already been made by our amendment of proposed section 8F(*2*)

(*6*) The Committee, by a majority, did not see the necessity for a statutory provision such as proposed section 8J and have, therefore, omitted it

(*7*) In the case of proposed section 8K, the majority of the Committee came to the conclusion that the benefit sought by this provision would be illusory owing to the many varying factors which frequently have to be taken into consideration in valuations, and felt that it would be extremely difficult to try and regulate the procedure for such valuations by rules framed by the executive They have, therefore, recommended the omission of this section

Clause 11.—The Committee have recommended the omission of proposed section 11 (*2*) as being unnecessarily harsh and also inequitable

Clause 12.—The changes in this clause are to be read with the re-draft of proposed new sections 8A and 8B. We have also provided for the recovery of court-fees in certain cases as a public demand.

Clause 14.—The omission of sub-clause (*b*) is merely consequential

Clause 17—We have omitted this clause as being unnecessary in view of the emendations recommended by us in the provisions of the Bill referred to in sub-clauses (*a*), (*c*), (*d*) and (*e*) of sub-clause (*2*)

The only case in which the Bill, as altered by us, requires the Local Government to prescribe anything in the nature of a rule is the provision in proposed section 8A as to the form of the statement of particulars of the subject matter of suits As we have provided for this in proposed section 8A itself, there is no necessity for retaining this rule-making section

Clause 18.—Sub-clause (*1*) has been omitted as consequential on the omission of proposed section 7B in clause 8

(*2*) Sub-clause (*2*) has been omitted as this matter is being more fully dealt with by the Court-fees (Bengal Amendment) Bill, 1935, to be introduced in the current session by the Hon'ble the Finance Member

Clause 19.—Sub-clause (*a1*) has been inserted in place of clause (*a*) omitted from proposed paragraph viA in clause 7(*5*)

(*2*) In sub-clause (*2*), we have substituted a fee of "fifteen" rupees for "one hundred" rupees as we consider the former figure to be a reasonably sufficient fee for the kind of case to which it relates

Clause 20.—The omission of this clause is consequential on the omission of clause 18 (*2*) which it was designed to supplement

We recommend that the Bill, as reported on by us, be passed

The official members on the Committee desire to make it clear that as the changes made in clause 6 (*2*), proposed sub-section (*2*) of section 6 and clause 7 (*3*), proposed paragraph v of section 7 require the previous sanction of the Governor-General and the Governor respectively they are unable to accept responsibility for them in the absence of such sanction

Minute of dissent by Maharaja Sris Chandra Nandy, of Kasimbazar, M.L.C.

It was the considered opinion of the Taxation Enquiry Committee that the imposition of court-fees should generally follow the cost of service principle "While the pitching of scale of fees so as to produce a revenue just sufficient to cover all the costs of the administration of civil justice is an ideal to be aimed at," to quote the report of the Committee, "financial considerations may justify the state charging something more, provided that the fees charged are not such as to cause substantial hardship to any class and particularly to the poorer litigants" No one will deny that the administration of justice in this province yields a substantial surplus over and above the outlay involved in it and that the charges of litigation should have to be considerably curtailed if justice is to be made available to the poorer people If therefore any amendment to the existing Act is to be carried it needs to be carried out in a manner so as to make administration of justice less costly The attempt to charge the basis of valuation in respect of suits relating to land is an ingenious method of enhancement of receipts under court-fees and is therefore to be deprecated

It is on this ground generally that I cannot approve of the changes sought to be made in sub-clauses (*3*), (*4*) and (*5*) of clause 7, relating to the valuation in suits relating to land Under the existing Act different criteria are provided for different kinds of property A permanently settled estate or a definite share of it separately assessed and entered in the Collector's register, is to be valued at 10 times the annual revenue, a temporarily settled estate, or a definite share of it separately recorded as paying revenue to the Government, at five times the annual revenue, a revenue free property at fifteen times the nett profits of the preceding year, and where no such nett profits have arisen with reference to the value of the similar land in the neighbourhood part of a revenue-paying estate not separately assessed, at the market-value of land, houses and gardens also at the market-value This appears to be a fair and equitable method of valuation Besides it must be borne in mind that if in certain categories of lands the original Act did not seek to introduce the principle of valuation according to market-value there had been certain cogent administrative reasons behind it, not to speak of the historical reasons There are no doubt anomalies in the working of the present Act, but the procedure suggested in clauses 7(*3*), (*4*) and (*5*) of the amending Bill is most certainly not the way of removing them On the other hand the expression "market-value" itself is a vague one as it is uncertain and variable and when the ascertainment of value under this principle is left at the discretion of the Collector any number of complexities and difficulties may arise under this system

Besides another very important principle is involved in this new method of valuation I do not like to enter into the question whether land revenue in the permanently-settled areas has any relation to the actual value of the land What I like to emphasise at the present moment is that the Government is clearly not justified to take advantage of the increased value of the land in adding to the public revenue by an indirect encroachment on the Permanent Settlement In Bihar and Orissa and Madras, in the case of permanently settled estates court fee has been made payable upon 20 times the revenue payable and in the case of estates not permanently settled court-fee has been made payable upon 10 times the revenue If the Government thinks that the valuation made in section 7 of the Court Fees Act is an under-valuation, I can well understand a proposal for increment in the lines of the amending Act in Bihar and Orissa and Madras Certainly the amount of land revenue paid is a more stable factor than a fluctuating market-value, a method which would entail an element of undue hardship on the litigant public and at the same time, plenty of administrative difficulties

My colleagues propose a modification of sub-clause (*3*) of clause 7 by introducing the principle of nett profits I do not see how this principle will improve matters in any way My objections as to the principle of market-value apply *mutatis mutandis* to the principle of nett profits as well

Subject to the above I generally agree with the changes in the Bill proposed by my colleagues

Minute of dissent by Mr. A. R. E. Lockhart, M.L.C.

Clause 8 (proposed section 7B).—I do not agree to the omission by the Select Committee of proposed section 7B It is a common knowledge that excessive claims are frequently made in references in land acquisition cases because there is no charge for such references In the great majority of cases the Collector's award is upheld and the time of the court has thus been wasted by what was probably a frivolous reference Legitimate grievances need not be discouraged by the clause in question as provision is made in the Land Acquisition Act that the costs of the reference including the Court fee, will ordinarily be paid by the Collector if the award goes against him Genuine applicants for a slight and not fantastic increase in the claims if not successful, would not be charged an amount incommensurate with the time of the Court involved in the hearing of the reference I suggest this clause be reinstated

Minute of dissent by Maulvi Abul Quasem, M.L.C.

Although I gladly recognise that the Bill has emerged from the Select Committee shorn of some of its most objectionable features, I am bound to say that there are still provisions which in my opinion cannot be supported The primary object of the Bill is stated to be to provide a suitable machinery for preventing the evasion of the existing law relating to court-fees, but provisions have been included which are bound to have the effect of increasing court-fees and which, therefore, must be resisted I would refer in particular to clause 7, subclause (3) of the Bill, wherein a totally new paragraph has been recommended to be substituted for the existing paragraph V in section 7 of the Act The existing paragraph recognises and provides for the difference that actually exists in the value of different kinds and classes of land, the substituted clause ignores this difference and prescribes a uniform fee of fifteen times the nett profits, where these are readily ascertainable This is manifestly improper and unjust and would work intolerable hardship The paragraph as originally proposed in the Bill would seem to have been better and less objectionable Little time has been allowed to record in detail my other objections to the Bill I intend to place them all before the Council in the shape of amendments

Minute of dissent by Maulvi Tamizuddin Khan, M.L.C.

I do not agree with the decision of the majority of the Committee in respect of clause 7 (3) The majority decision is that in suits for possession of lands of every kind and description the court fees chargeable will be 15 times the nett profits arising from the same during the year next before the date of presenting the plaint This view ignores the obvious difference in value between lands comprised in permanently settled estates and temporarily-settled estates permanent tenures and tenures held for a fixed period of time, holdings of occupancy *raiyats* and those of non occupancy and under *raiyats* and so on It seems to be far more equitable to assess different kinds of lands according to their market value

I have several other points of difference with the majority view, which will be clear from the amendments I intend to move when the Bill comes up for consideration

Minute of dissent by Mr H S Suhrawardy, M L C

I see no reason why in clause 7 (*3*) the fees should not be payable on the market value and market value only In subsequent clauses the fees are made payable on market value only, and it cannot possibly be within the contemplation of any Legislature to discriminate for no apparent reason It may be useful, however, to lay down that ordinarily 15 times the nett profits may be considered as the market value, as a guide to the assessing court, but the only criterion for assessment should be the market value, and not 15 times the nett profits in one case, and " the market value " in precisely a similar one

[(*3*) *If, after any inquiry under sub section (1) the Court finds that the subject matter of the suit has been wrongly valued, it shall revise the valuation accordingly*]

The Court-fees (Bengal Amendment) Bill, 1935

(Clause 9)

Investigation to ascertain proper valuation

8F (1) For the purpose of an inquiry under [*clause (a) of sub section (1) of*] section 8E the Court may depute, or issue a commission to, any suitable person to make such local or other investigation as may be necessary and to report thereon to the Court Such report and any evidence recorded by such person shall be evidence in the inquiry

(2) The Court may, from time to time, direct such party to the suit as it thinks fit to deposit such sum as the Court thinks reasonable as the costs of the inquiry, and if the costs are not deposited within such time as the Court shall fix, may, notwithstanding anything contained in any other Act, dismiss the suit if such party is the plaintiff or the appellant and, in any other case, may recover the costs as a public demand

[*Power to Collector to make inquiry as to correctness of valuation.*]

[*8G (1) For the purpose of an inquiry under clause (b) of sub section (1) of section 8E the Court shall send a copy of the plaint and of the statement of particulars of the subject matter of the suit and valuation referred to in section 8A to the Collector of the district in which the property which is the subject matter of the suit is situated, or, if the property is situated in more than one district, to the Collector of the district in which, in the opinion of the Court the most valuable portion of the porperty is situated*

(2) The Collector shall thereupon make such inquiry as he thinks fit as to the correctness of the valuation or, where a part only, of the property is situated in his district, of the valuation of that part, and may require the Collector of any other district in which any part of the property is situated, to furnish him with a correct valuation thereof, and such latter officer shall furnish such valuation after making such inquiry as he thinks fit

(3) The Collector, after completing the inquiry made by him and after receipt of any valuation which he may have required from any other Collector, shall record his decision as to the correct valuation of the subject matter of the suit with the reasons for his decision and shall send a report containing his decision and the reasons therefor to the Court

(4) In the case of an error apparent on the face of the record the Court may allow the Collector to correct his decision but such correction shall not have the effect of extending the period of limitation mentioned in sub section (5)

(5) The Collector shall also cause a copy of his report to be served on the plaintiff in such manner as the Local Government may by rule prescribe If the plaintiff is dis satisfied with the valuation made by the Collector he may, within thirty days of the date of service of the report, make an application to the Court for the revision of the Collector's decision

(6) When an application is filed under sub section (5), the Court shall give notice thereof to the Collector and shall call for the record of the Collector's inquiry After examining the record and taking such additional evidence, if any, as it thinks fit, the Court may confirm or may enhance or reduce the amount of the valuation determined by the Collector The Collector shall be deemed to be a party to any proceedings under this sub section

(7) After the disposal of any application filed under sub section (5) the Court shall record a finding as to the correct valuation of the subject matter of the suit Where no application is made under the said sub section the Court shall record a finding in accordance with the decision of the Collector received under sub section (3).]

Power of persons making inquiry under sections 8E, and 8F [*and 8G.*]

8H (*1*) The Court, when making an inquiry under section 8E [*or under sub section (6) of section 8G, the Collector, when making an inquiry under section 8G*] and any person making an investigation under section 8F shall have, respectively, for the purposes of such inquiry or investigation,

(Clauses 10, 11)

the powers vested in a Court under the Code of Civil Procedure, 1908, in respect of the following matters, namely — Act V of 1908.

(a) enforcing the attendance of any person and examining him on oath or affirmation,

NOTIFICATION

No 1147L C—26th February, 1935—The following report of the Select Committee on the Albert Victor Leper Hospital Bill, 1935, with the Bill embodying amendments recommended by the Committee, is hereby published for general information

Report of the Select Committee on the Albert Victor Leper Hospital Bill, 1934.

We, the members of the Select Committee of the Bengal Legislative Council to which the Albert Victor Leper Hospital Bill, 1934, was referred by a motion carried in the Bengal Legislative Council on the 18th February, 1935, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed All matter recommended to be omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter recommended to be inserted has been underlined

2 The Bill was published in English in the *Calcutta Gazette* of the 6th December, 1934

3 We do not consider that the Bill has been so altered as to require republication

4 The Committee met for the first time on the 21st February, 1935, and concluded its sittings on the 22nd February, 1935

The more important changes made in the Bill are as follow —

Clause 1.—We have altered the year of the Bill from "1934" to "1935"

Clause 4.—The change recommended in clause 4 (*1*) (*d*) is to guard against the contingency that might arise from the possible change in the jurisdiction of Public Works Divisions in Calcutta

(*2*) We think it better to leave the method of the election of the two trustees contemplated in clause 4 (*1*) (*f*) to the Corporation of Calcutta

(*3*) The change proposed in clause 4 (*1*) (*g*) is mainly verbal

(*4*) We do not see the necessity of qualifying the associations referred to in clause 4 (*1*) (*h*) by the use of the word "voluntary" and have recommended the omission of this word

(*5*) The emendation proposed by us in clause 4 (*3*) is merely verbal

(*6*) We think it desirable that the term of office of elected and appointed members should be five years instead of three years as in clause 4 (*4*) of the Bill as introduced and we have amended the clause accordingly

(*7*) The change suggested in clause 4 (*5*) is merely verbal

Clause 7.—We have altered clause 7 on the lines of clause 8 enabling the Government contribution to be increased, if Government thinks fit

Clause 17.—The proposed deletion of clause 17 (*2*) (*a*) is consequential on the alteration made in clause 4 (*1*) (*f*)

(*2*) We do not think that any allowances should be payable to the Trustees and have deleted clause 17 (*2*) (*c*) accordingly

(*3*) We have included in 17(*2*) (*e*) the rule-making powers provision for preparation of an annual report as well as maintenance of a record of proceedings, and for submission of copies to the Corporation of Calcutta as well as to Government

(*4*) We do not think that the Superintendent should be allowed to enter into any contracts and have omitted him from clause 17 (*2*) (*f*)

(*5*) The emendation proposed in clause 21 is verbal

The Schedule, Part III.—We are informed that the changes now made are necessary on the ground of greater accuracy

We recommend that the Bill, in the form as reported on by us, be passed

N B—The signature of Babu Haribansa Roy had not been received up to the time of publishing the Report.

Minute of dissent by Mr. S. M. Bose, M.L.C.

I sign the Report of the Select Committee subject to this minute of dissent

Clause 9.—There is no reason why the sum of Rs 5,000 should be earmarked for repairs to the buildings *existing at the date of the commencement of this Act* It is said that unless these words stand, the Trustees will spend the whole of this sum for repairs, etc , to new buildings, neglecting the old It is to be noted that twelve out of the fifteen Trustees under clause 4 of the Bill are *ex officio* Government servants or nominated by Government It is surely not too much to expect that the Board so constituted will perform its duties properly, and I see no reason why Government should not trust them

Further, I understand that a good portion of the buildings now existing are old and are likely to be pulled down and new ones erected In course of time, the existing buildings are all likely to be replaced by new ones So it will not be possible to spend the whole of this sum of Rs 5,000 in repairs of the buildings "existing at the date of the commencement of this Act"

I therefore think that these words should be omitted

Minute of dissent by Babu Sarat Chandra Mittra, M.L.C.

Clause 9. The Government having agreed to a grant not exceeding rupees five thousand per annum for repairs, I think that it will not be fair and equitable to restrict the application of the grant to repairs to the buildings in existence at the commencement of the Act

Minutes of dissent by Rai Bahadur Dr. Haridhan Dutt, M.L.C., and Mr. C. C. Cooper, M.L.C.

Clause 9.—I sign subject to my right to move for the omission of the words "existing at the date of the commencement of this Act" from lines 4 5 of clause 9

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 12th February, 1935 —

L A BILL No 5 OF 1935

A Bill further to amend the Code of Criminal Procedure, 1898

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, It is hereby enacted as follows — V of 1898.

Short title

1. This Act may be called the Code of Criminal Procedure (Amendment) Act, 193

Amendment of section 103, Act V of 1898

2. In section 103 of the Code of Criminal Procedure, 1898,— V of 1898

(*i*) in sub-section (*1*) for the word "locality" the word "neighbourhood" shall be substituted, and

(*ii*) the following new proviso shall be added to sub-section (*2*), namely —

"Provided that no evidence other than the list drawn up in accordance with the provisions of this section shall be admitted to prove the articles discovered during the search "

STATEMENT OF OBJECTS AND REASONS

Section 103 of the Code is practically a dead letter The word "locality" has been judicially interpreted as not to mean the same quarter of the town as the place searched and it has been ruled that the stress is on the word "respectability" and not on the word "locality" This has led to the view that failure to call inhabitants of the locality as witnesses does not make a search illegal (21 Madras 83) This could hardly have been the intention of the framers of this section In order to remove this ambiguity it is proposed to substitute the word "neighbourhood" and add a proviso to sub-section (2) This proviso will not permit the admission of evidence if the provisions of section 103 are not strictly complied with The object of these provisions has been stated to be as aiming against possible chicanery and unfair dealings on the part of the officers conducting the searches and was made to ensure confidence that anything incriminating which may be found in the premises searched shall really be found and shall not be planted This section really contemplates the presence of two respectable witnesses of the locality unconnected with the Government and its officers (4 Cr L J 390) The present amendment is intended to invalidate the search if not conducted strictly in accordance with the provisions of this section

The following Bill was introduced in the Legislative Assembly on the 12th February, 1935 —

L A BILL No 6 OF 1935

A Bill further to amend the Code of Criminal Procedure, 1898

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, It is hereby enacted as follows — V of 1898

Short title

1. This Act may be called the Code of Criminal Procedure (Amendment) Act, 193

Amendment of section 406, Act V of 1898

2. In section 406 of the Code of Criminal Procedure, 1898, the following proviso shall be omitted, namely V of 1898

"Provided that the Local Government may, by notification in the local official Gazette, direct that in any district specified in the notification appeals from such orders made by a Magistrate other than the District Magistrate or a Presidency Magistrate shall lie to the District Magistrate and not to the Court of Session"

STATEMENT OF OBJECTS AND REASONS

This amendment is necessary because of the fact that District Magistrate himself in most cases initiates proceedings for keeping the peace To expect him to do justice in appeal is really expecting too much from human nature So long as District Magistrate occupies the position as the head of the police and of executive authorities of the District, these appeals should not be heard by him

The following Bill was introduced in the Legislative Assembly on the 12th February, 1935 —

L A BILL NO 7 OF 1935

A Bill further to amend the Code of Criminal Procedure, 1898

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, It is hereby enacted as follows — V of 1898

Short title

1. This Act may be called the Code of Criminal Procedure (Amendment) Act, 193

Repeal of section 30 Act V of 1898

2. Section 30 of the Code of Criminal Procedure, 1898 (hereinafter referred to as the said Code), shall be repealed V of 1898

Repeal of section 34 Act V of 1898

3. Section 34 of the said Code shall be repealed

Amendment of section 34A, Act V of 1898

4. In section 34A of the said Code,—

(i) the word and figures "and 34" shall be omitted, and

(ii) the word "and" shall be inserted between the figures "31" and "32"

Amendment of section 35 Act V of 1898

5. In clause (*b*) of the proviso to sub-section (*2*) of section 35 of the said Code, the brackets, words and figures "(other than a Magistrate acting under section 34)" shall be omitted

STATEMENT OF OBJECTS AND REASONS

These provinces having acquired the status of Governor's province, such a discrimination shall no longer be permitted The accused charged with serious offences are not satisfied with the trial held before Magistrates who are especially empowered under these sections In most cases the Magistrates in their zeal to show, what they term good disposal hurriedly proceed with the trial with the result that cool and calm consideration of the facts of the case is not possible as is actually the case in Sessions trials As the administration is being reformed it is desirable that standard of judicial administration be also raised in these provinces in order to inspire greater confidence in the Courts

(3) No Court shall take cognizance of an offence under sub-section (2) of section 16 except on a complaint made by or with the sanction of an Inspector under this Act

20. The powers by this Act conferred upon the Local Government shall be exercised by the Governor General in Council in any case in which the exercise of such powers affects any persons employed by a railway administration

STATEMENT OF OBJECTS AND REASONS

In 1926 the Government of India addressed Local Governments with a view to ascertain the position with regard to the delays which occurred in the payment of wages to persons employed in industry, and the practice of imposing fines upon them The investigations revealed the existence of abuses in both directions, and the material collected was placed before the Royal Commission on Labour which was appointed in 1929 The Commission collected further evidence on the subject, and the results of their examination with their recommendations, will be found on pages 216—221 and 236—241 of their Report The Government of India re-examined the subject in the light of the Commission's Report and in February 1933 a Bill embodying the conclusions then reached was introduced and circulated for the purpose of eliciting opinion A motion for the reference of the Bill to a Select Committee was tabled during the Delhi session of 1933-34 but was not reached, and the Bill lapsed The present Bill is based upon the same principles as the original Bill but has been revised throughout in the light of the criticisms received when the original Bill was circulated

F NOYCE

NEW DELHI,

11th February, 1935

NOTES ON CLAUSES

Clause 1—The Bill applies only to the payment of wages to persons receiving less than Rs 100 per mensem The provisions relating to prompt payment apply in the first instance only to factory employees, and the provisions relating to deductions apply in the first instance only to factory employees and railway workers But it is proposed to enable Local Governments to extend any or all of the provisions of the Act to any class of persons employed in any industrial establishment, or in any class or group of industrial establishments

Clause 2—The definition of "wages" is designed to include payments in kind, and (with certain specified exceptions) all payments however described which are to be made to an employed person in consideration of his employment

Clause 3—It is necessary to fix the responsibility for the payment of wages in view of the later clauses which provide for a summary remedy in cases of delay or unlawful deduction, and for penalties

Clause 5—This is designed to secure that wages shall ordinarily be paid within seven days of the expiry of the period within which they were earned But it is proposed to reduce the interval to two days when an employee is discharged The power of conditional exemption vested in Local Governments is required mainly to remove difficulties that may arise in the exact calculation of the wages of piece-workers

Clause 6—It is intended that the possible deductions from wages should be of the following kinds —

(1) Deductions by way of fines [sub-clause (2) (*a*)]

(2) Deductions for damage or loss [sub clause (2) (*b*)]

(3) Deductions for services [sub-clause (2) (*c*) and (*d*)]

(4) Deductions on account of advances [sub clause (2) (*e*), (*f*) and (*g*)]

(5) Deductions which the employer is compelled to make [sub-clause (2) (*h*) and (*i*)]

(6) Deductions on account of payments to certain Provident Funds and Co operative Credit Societies [sub-clause (2) (*j*) and (*k*)]

Deductions for damage or loss can be made only in respect of (*a*) goods entrusted to an employed person for custody, or (*b*) money for which he is required to account It is not intended to permit deductions under this head in respect of damage or loss occurring in the course of a manufacturing process, *e g*, in respect of spoilt cloth

Advances are classified under three heads —

(*i*) those made before employment begins which are recoverable only from the first wage payment,

(*ii*) those made during employment on account of wages already earned, which are not subject to restriction, and

(*iii*) other advances made during employment which are to be subject to rules made by Local Governments

Clause 7—It is intended that fines should be imposed only for acts or omissions specified in a regular notice In clause 10 it is proposed to give Local Governments power to prescribe by rule the acts or omissions for which fines may be imposed It is also proposed that fines should be limited in amount that they should not be recoverable by instalments or after undue delay, and that they should be devoted to the benefit of employees Sub-clause (4) is designed to prevent fines being imposed on children

Clause 8—Deductions for damage or loss are limited to the amount of the damage or loss actually caused to the employer

Clause 9—Services consist of—

(*a*) housing accommodation, and

(*b*) other services approved by competent authority

Deductions are limited to the value of the service rendered, and the service must have been accepted by the employee

Clause 12—It is proposed that claims on account either of delay or of deductions should be dealt with by a special authority This authority will have power to order the payment to the claimant of the sum wrongfully withheld *plus* compensation up to ten times that sum in the case of deductions, and Rs 10 per head in the case of delay

Clause 13—Delay in payment frequently affects an entire establishment, and provision is made here for the presentation of a single application on behalf of any number of employed persons who are similarly affected

Clause 14—It is proposed that there should be an appeal to a special authority in cases where a substantial sum is involved

Clauses 16 and 17—These provide for prosecutions on account of infringements of the law but it is intended that such prosecutions should not be instituted unless a successful claim has been made under section 12 and the authority appointed under that section or the appellate authority considers a prosecution to be warranted

Clause 18—It is intended that persons coming under the Act should be limited to its procedure in respect of the recovery of unpaid wages

Clause 20—It is desirable to secure as far as possible uniform rules applicable to railway workers, particularly as one railway system may run through two or more provinces.

Addition of proviso to section 51, Act V of 1908

2. At the end of section 51 of the Code of Civil Procedure, 1908 (hereinafter referred to as the said Code) there shall be added the proviso— V of 1908

"Provided that execution by detention in prison shall not be ordered unless, after giving the judgment-debtor an opportunity of showing cause why he should not be committed to prison, the Court, for reasons recorded in writing, is satisfied—

(a) that the judgment-debtor, with the object or effect of obstructing or delaying the execution of the decree,—

(i) is likely to abscond or leave the local limits of the jurisdiction of the Court, or

(ii) has, after the institution of the suit in which the decree was passed, transferred, concealed, or removed any part of his property, or committed any other act of bad faith in relation to his property, or

Explanation —In the calculation of the means of the judgment-debtor for the purposes of clause (b), there shall be left out of account any property which, by or under any law for the time being in force, is exempt from sale in execution of the decree "

Amendment of rule 37, Order XXI in the First Schedule, Act V of 1908

3. In sub-rule (1) of rule 37 in Order XXI in the First Schedule to the said Code, for the word ' may" there shall be substituted the word "shall", and at the end of the sub-rule there shall be added the proviso—

'Provided that such notice shall not be necessary if the Court is satisfied, by affidavit or otherwise, that, with the object or effect of delaying the execution of the decree, the judgment-debtor is likely to abscond or leave the local limits of the jurisdiction of the Court "

Repeal of rule 40, Order XXI in the First Schedule, Act V of 1908 and insertion of new rule in place thereof

4. Rule 40 in Order XXI in the First Schedule to the said Code together with any alterations therein or additions thereto made under section 122 of the said Code shall be repealed and in place thereof there shall be inserted the rule--

Proceedings on appearance of judgment debtor in obedience to notice or after arrest

"40 (1) When a judgment-debtor appears before the Court in obedience to a notice issued under rule 37, or is brought before the Court after being arrested in execution of a decree for the payment of money, the Court shall proceed to hear the decree-holder and take all such evidence as may be produced by him in support of his application

for execution, and shall then give the judgment-debtor an opportunity of showing cause why he should not be committed to the civil prison

(3) Upon the conclusion of the inquiry under sub-rule (1) the Court may, subject to the provisions of section 51 and to the other provisions of this Code, make an order for the detention of the judgment-debtor in the civil prison and shall in that event cause him to be arrested if he is not already under arrest

Provided that in order to give the judgment-debtor an opportunity of satisfying the decree, the Court may, before making the order of detention, leave the judgment-debtor in the custody of an officer of the Court for a specified period not exceeding ten days or release him on his furnishing security to the satisfaction of the Court for his appearance at the expiration of the specified period if the decree be not sooner satisfied

(4) A judgment-debtor released under this rule may be re-arrested

(5) When the Court does not make an order of detention under sub-rule (2), it shall disallow the application and, if the judgment-debtor is under arrest, direct his release "

STATEMENT OF OBJECTS AND REASONS

This Bill is the outcome of the recommendations of the Royal Commission on Labour in India to the effect that in the case of industrial workers in receipt of wages less than Rs 100 a month arrest and imprisonment for debt should be abolished except where the debtor has been proved to be both able and unwilling to pay The Bill seeks to amend the Civil Procedure Code, 1908, so as to protect honest debtors of all classes, and not of the industrial worker class only, from detention in a civil prison and to confine such detention to debtors proved to be recalcitrant or fraudulent It provides *inter alia* that no order for execution by detention in prison shall be issued unless the debtor has been given opportunity of showing cause why he should not be committed to prison, and the Court is satisfied for reasons recorded in writing that (i) the debtor is likely to leave the local limits of the jurisdiction of the Court, or has after the institution of the suit fraudulently disposed of his property, and (ii) that he is able to pay the amount of the decree otherwise than from protected assets

2 The Bill applies to all judgment debtors After consultation with Local Governments the Government of India decided that in this matter there was no sufficient reason for restricting the protection to small debtors

The following Bill was introduced in the Legislative Assembly on the 13th February, 1935 —

L A BILL No 10 OF 1935

A Bill further to amend the Code of Civil Procedure, 1908, for certain purposes

WHEREAS it is expedient further to amend the Code of Civil Procedure, 1908, for the purposes hereinafter appearing, It is hereby enacted as follows — V of 1908

Short title and commencement

1. (*1*) This Act may be called the Code of Civil Procedure (Second Amendment) Act, 1935

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint

Insertion of new section 44A in Act V of 1908

2. After section 44 of the Code of Civil Procedure, 1908, the following section shall be inserted, namely — V of 1908

Execution of decrees passed by Courts in the United Kingdom and other reciprocating territory

"44A Where a certified copy of a decree of any of the superior Courts of the United Kingdom or any reciprocating territory has been filed in a District Court, the decree may be executed in British India as if it had been passed by the District Court

Explanation 1 —'Superior Courts', with reference to the United Kingdom, means the High Court in England, the Court of Session in Scotland, the High Court in Northern Ireland, the Court of Chancery of the County Palatine of Lancaster and the Court of Chancery of the County Palatine of Durham

Explanation 2 —'Reciprocating territory' means any country or territory which the Governor General in Council may, from time to time, by notification in the Gazette of India, declare to be reciprocating territory for the purposes of this section, and 'superior Courts', with reference to any such territory, means such Courts as may be specified in the said notification

STATEMENT OF OBJECTS AND REASONS

On the 27th February, 1924, Government introduced a Bill further to amend the Code of Civil Procedure, 1908, the object of which was to provide for the enforcement in British India of judgments obtained in the United Kingdom and in other notified parts of His Majesty's Dominions, as part of a reciprocal arrangement the other part of which consisted of the extension to British India of the provisions of Part II of the Administration of Justice Act, 1920, under which the judgments of superior Courts in India would become enforceable in the United Kingdom The Select Committee to which the Bill was referred expressed the opinion that the Bill would not ensure a fair measure of reciprocity The difficulty arose from the fact that under the British Act reciprocity could only be applied to judgments of "superior Courts" and most of the British Indian Courts of unlimited civil jurisdiction would not have come within the meaning of the term "superior Courts" as used in that Act No amendment of the Indian Bill could have altered that position, and for this reason it was decided to drop the Bill The position has now been altered by the passing of the Foreign Judgments

(Reciprocal Enforcement) Act, 1933, which provides for the extension of Part I thereof to His Majesty's Dominions outside the United Kingdom by an Order in Council and also leaves it to the Order in Council to specify the Courts which shall be deemed as "superior" within the meaning of the Act. The Government of India have ascertained that the Lord Chancellor has no objection to the Act being applied to all Indian Courts possessing unlimited original civil jurisdiction. This removes the obstacle which stood in the way of legislation in 1925, and the present Bill substantially embodies the provisions of the old Bill with some modifications mainly necessitated by the terms of the new English Act.

CALCUTTA, THE 26TH FEBRUARY 1935

RESOLUTION—No 1125Ind

Minister-in-charge The Hon'ble Nawab K G M Faroqui, Khan Bahadur

Read—

The Annual Administration Report of the Department of Industries, Bengal, for the year 1933-34

Mr A T Weston held charge of the department during the first and last parts of the year under review During the period of his absence on leave, from the 8th June 1933 to the 11th February 1934, Mr G S Dutt, I C S, was in charge The post of Principal, Government Weaving Institute, Serampore, was filled by the appointment of Mr Bhattacharjee, M SC (Tech) (Manchester) Otherwise there was no change in the superior staff

2 Though the factors which make for economic depression persisted and barred the way to a revival of industries dependent on world conditions, it is satisfactory to find evidence during the year of advance and expansion in the case of the industries more definitely related to internal trade Thus a feature of the year in Bengal was the increase in the number of cotton and sugarcane factories, and the general increase in the use of power under organised factory conditions illustrated by the interesting graphs attached to the report

3 In concentrating on the task of reviving and developing small and cottage industries the department made a useful contribution during the year towards the solution of the problem of unemployment The staff sanctioned for demonstration in the previous year was continued and was increased by the addition of 21 additional parties. Local advisory bodies were formed in a number of districts with a view to securing non-official advice and assistance in utilising these demonstrations to the best advantage, and the co-operation of the local officers was also enlisted

4 The results were substantial Nearly 400 students underwent training, of whom 165 at least are known to have started businesses of their own or to have secured employment or to have taken up advanced training The improved methods worked out in the Engineering Section were placed at their disposal, and these were particularly valuable in the cases of brass and bell-metal manufacture, where the students have learnt to make some of the less complicated building and sanitary fittings hitherto imported, of cutlery—the manufacture of scissors, for example, has been standardised and an improved furnace introduced—and of pottery, for which a cheap and satisfactory kiln has been invented, as well as new processes of glazing which are expected to stimulate demand Those who have set up for themselves after their training (and all *bona fide* industrialists) can receive the assistance and advice of the Industrial Engineer in meeting their practical problems A marketing investigator was also appointed to study the conditions of demand and supply in the case of the smaller industries and to help in finding markets

5 A valuable contribution to the work was that of the "Good Companions," an organisation of voluntary workers, which established a depôt in Calcutta, where crafts products are displayed in an artistic and attractive fashion, and did much to revive the demand for the products of Indian craftsmanship

6 Another feature of the year was the issue by the Tariff Board of the results of its enquiry into the conditions of the silk industry On the basis of this report the Government of India have given a substantial degree of protection to the industry for a period of five years It is the Director's aim to utilise the advantages so secured, to revive the old silk industry and to restore it, if possible, to something like its former pre-eminence This can only be done in present conditions if more

scientific methods are introduced such as will enable Bengal silk to compete successfully with the products of other countries This question and the question of general improvement in organisation are receiving the special attention of the department and of the Collectors of the silk-producing districts

7 The Industrial Chemist's section continued its programme of research, without which industries cannot develop and expand The work was based primarily on the practical problems referred by individual industrialists Special attention was, as before, paid to soap manufacture, the potential importance of which in India is very great, and the investigations resulted in a satisfactory measure of success Classes were held for training in soap-making There is at the same time great scope for other oil-seed products, and India's position as one of the largest producers indicates the possibilities of great future development A scheme for investigation on an all-India basis sent up from Bengal was under the consideration of the Imperial Council of Agricultural Research

8 Progress was made too in the weaving and allied industries The number of persons, both of the *bhadralok* and of the cultivating classes, who took up the spinning of various classes of materials, dyeing, etc, as a subsidiary occupation increased Demonstration parties were at work, and a considerable number of persons, mainly from the Midnapore district, were taught the use of improved appliances As in the case of silk, up-to-date methods are required if the industry is to thrive, and the scheme by which improved weaving appliances have been supplied to cottage weavers at cost price has proved very successful The actual cost of the appliances so supplied amounted to Rs 25,894, and the cost of packing and freight, borne by Government, to Rs 10,536 The Director reports that the weaver is no longer satisfied with the *kutcha* construction usually found in the bazar when he has once become familiar with the possibilities of a properly constructed loom

9 The Bengal Tanning Institute maintained its record of useful work in all the main branches of its activities, viz, research, instruction and demonstration, during the year under review The investigations carried out at the Institute and the technical knowledge in the improved tanning process imparted by it proved of great utility to the industry It is noteworthy that the tanning industry in Bengal, particularly the manufacture of the better grades of chrome upper leather, has derived substantial advantages as a result of the Ottawa Agreement of 1932

10 The progress of technical education in all its branches, including weaving education, was maintained during the year under review In order to make the instruction imparted at the Government Weaving Institute at Serampore more practical, arrangements were made during the year with the authorities of the Banga Luxmi Cotton Mills located at Serampore to give the students of the Institute the benefit of a course of practical training in the mills simultaneously with theoretical training at the Institute

11 For the considerable measures of achievement attained during a difficult year the Government of Bengal (Ministry of Industries) have much pleasure in thanking Mr Weston, Mr Dutt and the superior staff of the department The Minister in charge also takes this opportunity of conveying his thanks to the members of the Board of Industries and other Boards and Committees associated with the department for the assistance rendered by them

Resolution on the final report on the floods and relief operations in the district of Rajshahi during the year 1934.

Miscellaneous.

CALCUTTA, THE 2ND MARCH 1935

RESOLUTION—No 3402Mis

Read—

Letter No 4162J, dated the 8th December 1934, from the Commissioner, Rajshahi Division, submitting the final report on the floods and relief operations in the district of Rajshahi during the year 1934

The report deals with the operations for the relief of distress caused by the floods of September 1934 in the district of Rajshahi The abnormal rise in the river Padma from the second week of August caused serious flooding and extensive damage to crops It reached its highest level by the first week of September when the water was 63 10 feet above sea level and only a few inches less than the record rise to 64 24 feet in 1879 The low lying lands along the river and its distributaries in this and other districts were inundated, the area affected in Rajshahi district being 300 to 400 square miles The southern portion of Godagari, Paba and Charghat in Sadar and Lalpur thanas and the western portion of the Baraigram thana in Nator subdivision suffered heavily, 53 villages in Charghat, 30 in Paba and 33 in Godagari police-stations in the Sadar subdivision, and the whole of the Lalpur police-station and unions VII and VIII of Baraigram, being inundated The cultivators inhabiting the "chars" of the main river were naturally the worst sufferers, lands and houses being washed away and the *aus* crop destroyed. In the "chars" alone, about 2,500 houses collapsed

Fortunately there was no loss of life or cattle as a direct result of the floods, and timely precautions by the health staff of the district board prevented the outbreak of epidemic diseases

The distress was at first serious, but it did not last for long, and it is hoped that the inundation will in the end benefit public health and increase the fertility of the land

Relief measures were promptly undertaken by local Government officers and the district board To relieve the distress officers were sent out with boats and rice People who lost their huts were brought, along with their cattle, to the main land Shelter was given to the homeless, and food was distributed among the starving A sum of Rs 2,470 was raised locally for gratuitous relief, Rs 1,000 was added by the Divisional Commissioner from the relief fund at his disposal, and a grant of Rs 3,000 was made by Government 4,198 maunds of rice with small quantities of *dal*, salt, oil, etc, were distributed, chiefly among the "char" people A sum of Rs 20,000 has been allotted by Government for distribution as agricultural loans in the district

The water subsided by the beginning of October and conditions gradually became normal

The Governor in Council is satisfied that the measures taken for the relief of distress were successful and adequate He desires to record his appreciation of the good work done by Mr A S Larkin, I C S, the Collector of the district, and his staff, by the district board and by relief committees Among those who generously subscribed to the relief funds, the proprietors of the North Bengal Sugar Mills deserve special mention

Order—Ordered that this resolution be published in the *Calcutta Gazette*

And it shall come into force at once

Amendment of section 9 of Ben Act 1 of 1885

3 At the end of section 9 of the Bengal Ferries Act, 1885, the words " provided such term shall not exceed three years " shall be added

STATEMENT OF OBJECTS AND REASONS

The object of this short amendment is to fix the maximum limit to the period to which a ferry should be leased In some places the ferries are leased to farmers for long periods, namely, 10 to 15 years In the district of Mymensingh the first class ferries have been leased for 15 years and the second class ferries have been leased for 10 years to a very rich ferry farmer A great deal of exaction and exploitation is committed by these long termed ferry farmers upon the ignorant and helpless passengers during this long period in respect of ferry charges to be realised on goods and conveyances such as *dulis*, carts and *palanquins*, etc Monopoly of any trade is harmful to the best interest of people at large It is also financially injurious to the best interest of District Boards themselves This power of granting long lease has been instrumental to scaring away the small farmers making rooms for only big ones with big purses

Another reason for this amendment is that a Board should not be allowed to tie the hands of its successor in respect of the management of the Board's finance This practice of allowing one Board to forestall the actions of a succeeding Board is bound to interfere with the efficient management of a Board and is against the principle of electing a new Board every third year or fourth year If one Board is allowed to tie down the financial hand of all future Boards, where is the necessity of having a new Board few years after ?

In the opinion of the mover a lease for a term not exceeding three years will be best suited to the legitimate interest of District Boards and ferry farmers alike

NOTIFICATION

No 1322L C —6th March, 1935 —In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 28th February, 1935, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto

THE ESTATES PARTITION (AMENDMENT) BILL, 1934

A
BILL

to amend the Estates Partition Act, 1897

Ben Act V of 1897
5 & 6 Geo V, C 61, 6 & 7 Geo V, C 37; 9 & 10 Geo V, C 101

WHEREAS it is expedient to amend the Estates Partition Act, 1897, in the manner hereinafter appearing,

AND WHEREAS the previous sanction of the Governor General has been obtained under sub section (3) of section 80A of the Government of India Act to the passing of this Act,

It is hereby enacted as follows —

Short title

1 This Act may be called the Estates Partition (Amendment) Act, 1934

Commencement of the Act

2. This Act shall come into force at once, and it shall apply not only to partition proceedings which may be instituted hereafter, but also to such proceedings commenced before the passing of this Act but not finally disposed of

Amendment of section 5 of Bengal Act V of 1897

3 In section 5 of the Estates Partition Act, 1 7, after sub section (5), the following sub section shall be inserted, namely —

"(6) Notwithstanding anything contained in sub section (3) of section 5, if the interest of such recorded proprietor consists of an undivided share held in common tenancy in specific mouzas or tracts forming part of the parent estate but not extending over the whole area of the parent estate, the Collector, may, if he thinks it equitable and convenient, assign to him as his separate estate lands, either from such specific mouzas or tracts, or from other mouzas or tracts or partly from such mouzas or tracts and partly from other mouzas or tracts of the parent estate, the assets of which shall bear the same proportion to the assets of such specific mouzas or tracts as his undivided share in such specific mouzas or tracts bears to the entire mouzas or tracts"

STATEMENT OF OBJECTS AND REASONS

It has been found that the provisions of sub section (3) of section 5 of the Estates Partition Act V, 1897, may be used by a designing proprietor to cause serious inconvenience and irreparable mischief to another co sharer proprietor and to tie the hands of the partition authorities in making an equitable partition

For instance, suppose A and B are the two proprietors owning, respectively, 15-annas and 1 anna share in an undivided estate held in common tenancy A does not live within the estate, but B has his homestead in it There is a block of common land just contiguous to B's house forming his compound which, on the grounds of equity, convenience and compactness should be allotted to B at the time of partition, in respect of his 1 anna share With a view to cause serious inconvenience to B, A selects that very block and transfers his 15-annas share of it to his son C C gets his name registered and then A or B or C applies for partition

Under section 5, sub section (3), as it now stands, the partition authorities are bound to form a separate estate for C with 15 annas of that block, and they have no power to allot the entire block to B and to compensate C by other lands of equal assets

The Bill is intended to remove this defect and empower the partition authorities to make an equitable partition notwithstanding any device which may cause difficulty and inconvenience to a co-sharer

NOTIFICATION

No 1793M —1st March 1935 —The following is published for general information under section 41 of the Licensed Warehouse and Fire Brigade Act, 1893 (Bengal Act I of 1893)

No 1675M, dated Chinsura, the 6th September 1934

Memo - By L B Burrows Esq, C B E Commissioner of the Burdwan Division

Copy of memorandum No 3584G, dated the 17th August 1934, from the District Magistrate of Howrah, with enclosures, forwarded to the Secretary to the Government of Bengal, Local Self-Government Department for information

2 In accordance with Government orders communicated in memorandum No 544M of the 7th February 1934, the question of the proposed reduction in the amount payable by the Howrah Municipality from 14 per cent to 10 per cent is to be considered after Garden Reach is separated from Calcutta

No 3584G, dated Howrah the 17th August 1934

Memo —By the Magistrate of Howrah

Copy of the following, forwarded to the Commissioner of the Burdwan Division Chinsura

No 1535G dated Howrah the 11th August 1934

From—B C Datta, Esq M A LL B, Bar-at-Law, Chairman Howrah Municipality,

To The Magistrate of Howrah

As requested in your letter No 3112-G dated the 17th July 1934 I have the honour to submit herewith two statements one showing the warehouses licensed under the Fire Brigade Act and the other showing the receipts and disbursements on account of the same for the year 1933-34 The former statement has been prepared in accordance with the instructions contained in the Government of Bengal Municipal Department, letter No 470M dated the 14th February 1917, to the Commissioner of Burdwan Division, a copy of which was forwarded under his memorandum No 137/XXIII-8, dated the 16th February 1917

The collection of fees worked out to be 69 3 per cent of the arrear demand and 90 5 per cent of the current demand as against 83 3 per cent of the arrear demand and 89 per cent of the current demand of the year 1932-33 The demand for the year under report amounted to Rs 28,174 and the collection to Rs 24,859 as against Rs 26,191 for demand and Rs 23,237 for collection respectively for the year 1932-33

The contribution which the Commissioners were called upon to pay for the maintenance of the Fire Brigade amounted to Rs 57,837

The directions contained in the first proviso to section 10 of the Act have been followed

May I take the liberty of pointing out on the one hand the differences between our collections and the payments we are compelled to make to the Fire Brigade and the percentage of charges to which we are assessed Having regard, however to the number of cars that are maintained in Howrah and in Calcutta, the percentage of 14 per cent on Howrah is out of all proportion to that to which the Calcutta Corporation is assessed

The percentage of 14 per cent is therefore highly iniquitous and ought to be reconsidered

No F B 543, dated Calcutta, the 13th September 1934

From—A Frederick, Esq , officiating Chief Officer, Calcutta Fire Brigade,

To—The Secretary to the Government of Bengal, Local Self-Government Department

(Through L H Colson, Esq , C I E , J P I P , Commissioner of Police, Calcutta)

I have the honour to submit the following report on the working of the Calcutta Fire Brigade for the year ending the 31st March 1934

The work of the department during the year under review has been normal

Financial statement—The statement of receipts and expenditure and payments made by municipalities within the jurisdiction of the Fire Brigade and Licensed Warehouse Act (I of 1893) is given in Appendix I

The cost of maintenance of the Fire Brigade is derived from contributions by (*a*) the Calcutta Municipality and (*b*) the Howrah Municipality, the former contributing 86 per cent and the latter 14 per cent

Fees for licensed warehouse are charged under section 10 of the Licensed Warehouse and Fire Brigade Act, I of 1893, and are levied at 10 per cent of the annual valuation of warehouses subject to a maximum of Rs 1 500 per warehouse per annum, and the income thus derived is credited to the Fire Brigade Fund and deducted from the amount required from the municipalities concerned

During the year 1932 33, 40 per cent of the contribution required from the Calcutta Municipality was derived from this source, leaving 60 per cent only to be contributed from the rates The contribution from the Calcutta Municipality to the Fire Brigade Fund in 1932-33 was Rs 3 31,617 A similar percentage approximately applies to the Howrah Municipality which contributed Rs 45 000 in 1932 33 Rs 2016 were received in fees for attending fires outside the jurisdiction of the Calcutta Fire Brigade

I am glad to be able to report that increased income has been derived from taxation under the above Act

Fires, etc The total number of calls for fires or supposed fires was 534, being a decrease of 43 as compared with the previous year and a decrease of 106 as compared with the average of the past ten years The actual number of calls for fires was 437, which shows a decrease of 3 as compared with the previous year, and the number of fires classed as serious (*i e* , over Rs 20,000 damage per fire—see Appendix III) was 18 against 16 in the previous year

I am pleased to record that the number of wilful false alarms made by the public from street fire alarms have immensely decreased This year 48 alarms of this nature were received, which shows a decrease as compared with 72 in 1932-33 and an average of 88 during the past ten years

Regarding false alarms of fire by private telephones I am glad to report that very little trouble occurs in this connection and the number is negligible This is due to the much appreciated action of the Bengal Telephone Company in disconnecting subscribers who permit their instrument to be used for such purposes, either knowingly or unknowingly, otherwise there is no doubt the number of false alarms from this source would have been much greater Five false alarms of this nature were received during the year under review against three in the previous year

Seventeen false alarms were due to electrical defects in the street fire alarm system as compared with 34 during the previous year The number of false alarms either accidental or given with good intent is 6 (19 in 1932-33).

The calls were classified as follows:—

Fires	437	(440)
False alarms, wilful from street fire alarms	48	(72)
False alarms, due to electrical defects	17	(34)
False alarms, given with good intent or accidental	6	(19)
False alarms, given from private telephone	5	(3)
False alarms, due to lightning	3	(2)
Special service (buildings collapsed, etc.)	18	(7)

The actual number of calls received during the year was 774 as compared with 839 during the previous year. These figures include instances where more than one call was received for the same fire, and are given for the purpose of classifying and comparing the means by which calls for fires, etc., are given.

These calls were transmitted to the Fire Brigade as follows:—

By private telephones, 471 (473 in 1932-33), by street fire alarms, 264 (326 in 1932-33), by messengers giving information at fire stations, 35 (28 in 1932-33), by direct fire telephones from theatres, cinemas, public buildings, etc., 3 (9 in 1932-33), by firemen on "Lookout" duty, 1 (3 in 1932-33).

Regarding the calls for actual fires in 145 cases the first information was transmitted to the Fire Brigade by means of street fire alarms, in 262 cases by private telephones, in 30 cases by messengers.

Means by which fires were extinguished.—In 255 cases fires were extinguished by first aid machines, chemical fire extinguishers, buckets of water by firemen, or by occupiers before the arrival of the Fire Brigade, in 69 cases by 1 motor fire engine, in 29 cases by cutting or disconnecting electric fuses, in 18 cases by 2 motor fire engines, in 30 cases by the application of sand, in 6 cases by hydrants, in 8 cases by 3 motor fire engines, in 1 case by 1 motor fire engine and fire float, in 2 cases by 4 motor fire engines, in 1 case by 5 motor fire engines, in 2 cases by 3 motor fire engines and fire float, in 1 case by 4 motor fire engines and trailer pump, in 1 case by 4 motor fire engines and trailer pump and fire float, in 1 case by 5 motor fire engines trailer pump and hydrants, in 2 cases by 5 motor fire engines, trailer pump and fire float, in 1 case by 6 motor fire engines and fire float, in 1 case by 6 motor fire engines and hydrants, in 1 case by 7 motor fire engines and trailer pump, in 1 case by 7 motor fire engines, hydrants and fire float, in 2 cases by 7 motor fire engines, in 1 case by 8 motor fire engines, in 1 case by 8 motor fire engines, trailer pump and fire float, in 1 case by 8 motor fire engines, hydrants and trailer pump, in 1 case by 8 motor fire engines, hydrants, in 1 case by 8 motor fire engines and trailer pump.

Fires in licensed premises.—Thirty-one fires occurred in premises licensed under the Licensed Warehouse and Fire Brigade Act, I of 1893, as compared with 38 during the previous year.

Fire loss—The total damage caused by fire and water during the year has been estimated at Rs 21,25,610 as against Rs 19,51,570 of the previous year The average total damage per annum for the past ten years is Rs 10,73,990 The increase is due to a series of serious jute fires and ship fires, the causes of which could not be ascertained The average damage per fire is Rs. 3,980 as compared with Rs 3,382 for the previous year, and an average of Rs 1,675 per fire for the past ten years

The loss per fire is classified as follows —

	289 fires under Rs 100	(287)
	91 „ from Rs 100 to Rs 1,000	(87)
	25 „ „ Rs 1,000 to Rs 5,000	(35)

It is estimated that the motor fire appliances travelled 14,858 miles during the year to and from calls as compared with 15,916 miles in the previous year

The following statement gives the number of times each motor fire engine has been turned out in response to calls —

The total number of pumping hours at fires during the year was 1,571 hours 15 minutes as compared with 1,732 hours 30 minutes in the previous year

Fire stations—Appendix IV gives the number of times each fire station has been turned out in response to fire calls, together with monthly statements

Staff—The strength of the Brigade during the year was 271 as detailed below —

One Chief Officer, 1 Second Officer, 1 Chief Engineer 5 Station Officers, 8 Engineers, 7 European firemen, 1 Warehouse Inspector, 3 clerks, 1 store keeper, 3 telephone operators, 2 carpenters, 2 lathe-mechanics, 1 fitter, 1 blacksmith, 1 tinsmith, 10 Indian drivers, 1 head tindal, 21 tindals, 178 khallasis and 13 menial employees

The conduct and discipline of the staff throughout the year have been exemplary

Fatalities and accidents—Appendix VI gives short reports of fires and special occurrences involving loss of life or serious accidents

The number of lives lost during the year under review is 8 as compared with 11 in the previous year

Four persons were injured at fires as compared with 13 in the previous year

I am again glad to report that no serious accidents occurred during training recruits, or at drill

In all cases, where necessary, first aid was rendered by the Fire Brigade and the injured persons conveyed to hospital by motor ambulances

Water mains—I am glad to mention that action is being taken to provide sluice valves, etc, on the mains used for fire fighting Under the existing circumstances when it is necessary to repair mains or add fresh connection practically the whole of the water-supply system has to be closed down and improvised arrangements made to enable the Fire Brigade to deal with the situation Although no serious fire occurred when the water supply was not available the danger of fires taking a serious turn is ever present, and I would urge that more attention should be given for putting up additional sluice valves so that the water-supply need not be closed down for repairs, etc

The Cossipore-Chitpore area bounds with extremely serious fire risks, mostly consisting of jute warehouses and presses Water has to be obtained from tanks or ponds (many of which are replenished by rainfall only) so at every fire motor pumps have to be utilised, as otherwise no water under pressure is available This necessarily means some delay in getting to work, which would be obviated if water mains were installed The nature of the risk involved is such as to render any delay whatever very dangerous, and there is no doubt that the installation of an efficient supply of water under pressure would enable the Fire Brigade to cope with many fires in their early stages and thus prevent them developing into serious fires

For many years this has been pointed out in the Annual Report and also the fact that many of the tanks and ponds, which were formerly accessible, have now been filled up for sanitary reasons or to provide building sites

A scheme for providing the necessary water-supply was discussed by the Corporation several years ago, but so far no action has been taken

I would again stress that special attention be paid to the provision of a water-supply system for Cossipore-Chitpore area and immediate action taken

Conditions in Howrah district are similar to those in the Cossipore-Chitpore areas The Brigade has to rely on the river and tanks for an adequate supply of water In Howrah also most of the available tanks are being filled in for sanitary reasons or to provide sites for building

Although under a scheme approved of for the provision of hydrants in suitable positions in the mains supplying water to the overhead reservoirs some hydrants have been put up, I have to report that the risk of a great fire developing in the Howrah district is ever present, and it is hoped that the municipal authorities will considerably increase the number of these hydrants

The fact that the fire float cannot approach certain portions of the Howrah river bank at low tide further complicates matters, and often the greatest difficulty has been experienced in obtaining sufficient water even to stop fires from spreading

Fire float—The fire float (5,000 gallons per minute capacity) is stationed on the river opposite the Prinsep's Ghat During the year under review it has responded to 14 calls as compared with 12 calls in the previous year

Street fire alarms, telephone and electrical communication—I am pleased to record appreciation of the work done by the Bengal Telephone Company, and the thanks of the Brigade are due to every member of that Company The telephone operators have been very efficient in their duties and all necessary repairs to fire alarms, telephones, etc, have been carried out without delay

The street fire alarm system, comprising some 150 points, is maintained by the Bengal Telephone Company in a highly creditable manner

The number of false alarms due to electrical defects in this system is 17 for the year under review as compared with 34 in the previous year

Inspection department—The majority of theatres, cinemas and other places of public amusement with few exceptions have no serious fire risks The work of inspecting these premises is carried out by a Corporation official, but before licenses are granted by the Corporation they are inspected by a Fire Brigade Officer in regard to fire precautions and other matters relating to public safety

There were no serious fires during the year in theatres, cinemas or places of public amusement

In connection with the Licensed Warehouse and Fire Brigade Act, I of 1893, 6,564 inspections of warehouses have been made during the year Six hundred and twenty-three applications and complaints have been attended to and disposed of Two hundred and thirty-six

prosecutions were made under section 14 of Act I of 1893, which resulted in 197 persons being fined, the fines aggregating in all Rs 997 Eleven persons were warned and discharged 2 persons acquitted, 17 cases were withdrawn and 9 cases were filed owing to their being no trace of the parties concerned

General—The Calcutta Fire Brigade protects the city of Calcutta and the Municipality of Howrah, and may attend fires outside the boundaries of the above, but not exceeding a radius of 6 miles from Fire Brigade headquarters provided appliances can be spared, and on payment of a prescribed fee The total area protected is approximately 120 square miles comprising a population of over 2 000 000 persons

The Fire Brigade headquarters is stationed in a portion of the Samavaya Mansions, rented for the purpose The place is extremely congested and unsuitable for the purpose of the Fire Brigade There is no drill yard, drill tower, or drying tower and the workshop accommodation is extremely limited

A proposal for construction of an up-to date Fire Brigade headquarters on the "Free School" site at an estimated amount of Rs 6,60,000 has been submitted to the municipalities concerned and Government and it is hoped that the matter will receive due consideration so that the Fire Brigade may have headquarters of their own It may be noted that the total rent paid up to date amounts to Rs 5,98,000

On 2nd January 1934, a Fire Brigade Exhibition and Tournament was held at the Central Avenue Fire Station Their Excellencies the Viceroy and the Countess of Willingdon honoured the Fire Brigade by their presence and presented Long Service Medals to Station Officers Tucker and Fraser

3 The Committee met for the first time on the 23rd February, 1935, and concluded its sittings on the 25th February, 1935

4 We do not consider that the Bill has been so altered as to require republication

5 The changes made in the Bill are as follows --

Clause 1.—We have added a sub-clause to limit the duration of the enhanced stamp duties to three years

Clause 5.—We have altered the year "1934' to '1935"

Clause 7 -In item (*17*) we have omitted sub item (*i*) which sought to raise the stamp duty on the mortgage of a crop when the loan is repayable within three months from the date of the instrument

In item (*23*) we have omitted those words which sought to raise the duties on a settlement to the level of those payable on a conveyance, and have added a provision to raise the minimum duty on an instrument of settlement from twelve annas to one rupee The need for this addition arises from the amendment to clause (*c*) of Article No 5 which is provided in item (*2*) of clause 7

6 We recommend that the Bill as reported on by us be passed

Minute of dissent by Rai Bahadur Keshab Chandra Banerji, M.L.C.

I sign the Report subject to the following minute of dissent

I am opposed to any increase of taxation until there is a distinct improvement in the economic condition of the country The proposed enactment will prejudicially affect the interest of the landed classes as well as of businessmen While there has been a considerable depreciation in the value of landed properties owing to continued slump in the jute market, the margin of profit from business has also been greatly reduced It is unfortunate that Government should think fit to enhance stamp duties at such a time—an additional imposition which will affect those who have been hard hit by the economic depression I am not on principle opposed to taxation provided that the people have the capacity to bear the burden and there is necessity for it On the contrary, those who have a fixed monthly income are the proper persons to be taxed, but we find that they are going to benefit at the expense of others The restoration of the remaining 5 per cent cut in the salaries of Government officers only confirms that view

I am glad that the Select Committee have proposed the addition of a sub clause to clause (1) limiting the duration of the enhanced stamp duties to three years, a change which I greatly welcome, but I think the amendment should take the following form, namely —

"(4) Sections 3, 4, 6 and 7 shall remain in force for three years only or till the introduction of the Reforms if the latter is earlier and thereafter the Indian Stamp Act, 1899, shall have force as if it had not been amended by the said sections"

THE INDIAN STAMP (BENGAL AMENDMENT) BILL, 1935.

NOTIFICATION

No 1382L C —13th March, 1935 —The following report of the Select Committee on the Bengal Electricity Duty Bill, 1935, with the Bill embodying amendments recommended by the Committee, is hereby published for general information

Report of the Select Committee on the Bengal Electricity Duty Bill, 1935.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Electricity Duty Bill, 1935, was referred by a motion carried in the Bengal Legislative Council on the 12th February, 1935, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed All matter recommended to be omitted by the Select Committee has been printed in *italics* and enclosed in square brackets and all new matter recommended to be inserted has been underlined

2 The Bill was published in English in the *Calcutta Gazette, Extra ordinary*, of the 28th January, 1935

3 We do not consider that the Bill has been so altered as to require republication

4 The Committee met for the first time on the 19th February, 1935, and concluded its sittings on the 27th February, 1935

5 The more important changes made in the Bill are as follow —

Clause 1.—We have added to sub-clause (*3*) a provision to limit the duration of the Act to three years

Clause 2.—The addition of the words "other than a distributing licensee" is necessary, as otherwise in certain cases duty would be leviable twice on the same energy

Clause 3.—Duty is leviable only on energy consumed for the purpose of lights and fans and as in practice the amount of energy so consumed is measured by meters after transmission and transformation, the words "excluding losses of energy in transmission and transformation" are unnecessary

We have recast the proviso so that it provides for the exemption also of mines, places of public worship, burial-grounds, vessels and certain charitable institutions

Clause 3A.—This new clause exempts newly-formed electrical undertakings during the first three years following the date on which they commence supply

Clauses 4, 5 and 6.—The Bill as originally drafted made no express provision for the collection and payment of the duty leviable on energy generated by persons who are not licensees We have added a new sub-clause to clause 4 to remove this defect, and have made consequential changes in sub-clause (*1*) of clause 4 and in clauses 5 and 6

Clause 7.—This clause has been redrafted so as to include provision for the recovery also of duty leviable on energy other than energy supplied by a licensee

Clauses 8 and 9.—We consider it unnecessary to provide a penalty for the breach, without distinction, of all the rules contemplated by clause 9, and have made amendments accordingly

Clause 8A.—We have added this new clause, mainly on administrative grounds, to exempt small private generating plants

The First Schedule.—*Item* (*2*)—The scale contained in this item is intended to apply only where the unmetered supply of energy is by a licensee We have amended the item to make this clear

The Second Schedule.—*Item (4a)*—This addition is consequential on our inclusion of mines in the proviso to clause 3

Item (8)—This item replaces explanation 2(*a*) of the Schedule as originally drafted, makes its meaning clearer and provides in addition for the exemption of small shops

Explanations 2 and 3.—The changes here are consequential on the addition of item (8)

6 We recommend that the Bill, as reported on by us, be passed

NOTE—The signature of Babu Jitendralal Bannerjee had not been received up to the time of publishing the Report

Minute of dissent by Babu Jatindra Nath Basu, M L C

The limitation of the period during which the Bill is to operate and the exclusion of new concerns for 3 years will remove some of the serious objections to the measure But the price that consumers in many localities outside Calcutta have to pay for energy is not economical to the consumers The measure should provide for exemption from payment of duty of those consumers who pay more than four annas per unit

Minute of dissent by Rai Bahadur Satyendra Kumar Das, M L C

I sign the report subject to the following minute of dissent —

As 80 per cent of the amount of the proposed taxation will be available from the city of Calcutta alone the operation of the Act should be limited to Calcutta only The unit charge being the lowest in Calcutta the number of units under item (7) of the Second Schedule under the head "Exemptions" should be 12 units for Calcutta, and 24 units for mufassal towns, as chargeable unit rate in Calcutta is practically less than half the rate charged in mufassal towns I reserve my other comments for the next opportunity during the consideration of the Bill in the Council

Minute of dissent by Mr. Narendra Kumar Basu, M L C.

Clause 3—In the proviso to clause 3, I would add "girls' schools" It is well known that most girls' schools in the province are run at a loss and the exemption of these from the operation of the Act would be in accordance with the professed solicitude of the Government for female education in the province

Minute of dissent by Khan Bahadur A. F M. Abdur-Rahman, M L.C.

I sign the report subject to my note of dissent that in the Second Schedule in item No (7) in place of 12 units there should be at least a minimum of 18 units otherwise it will be practically no relief to the middle class people

Clause 2.—We have expanded the definition of "Collector," outside Calcutta, so that it may cover any officer, *e g*, an Additional Collector of a district, duly empowered by Government

We have added a definition of "Superintendent of Excise" so as to enable an Inspector of Excise who is in charge of a district to exercise the powers of a Superintendent under the Act

Clause 6.—We have made it clearer that the penalty in clause 6 refers to the selling of tobacco without a license

Minute of dissent by Dr. Naresh Chandra Sen Gupta, M.L.C.

I regret I cannot agree with the scheme of the Bill

It must be remembered that the Bill is not meant to be penal, but only a revenue measure designed to recover a very small amount of revenue from sellers of tobacco On payment of the very small revenue of Rs 6 or less the holder of the license is to be able to sell an unlimited quantity of tobacco unlike an excise licensee who has to pay the tax according to the quantity of the excisable article sold

Yet this Bill prescribes penalties out of all proportion to the requirements of the case and lays down an elaborate procedure mainly borrowed from the Excise Act which would be wholly unnecessary for the end in view, and, if abused, might lead to utterly needless harassment of persons for a small matter of Rs 3 or Rs 6

The correct model for a measure of this kind intended to realise small revenues is not to be found in the Excise Acts which are designed for a different category of revenue offences but in the provisions of the Railways Act for realisation of fares from passengers by penalising travelling without tickets (Sections 113 and 132) Section 113 of the Railways Act provides that for travelling without a ticket or without payment of a proper fare the offender has to pay a small fixed penalty, not exceeding the single fare payable on the difference payable, to the authorised railway officer demanding the same Sub-section (4) of the section provides that on his failure to pay the fare plus the penalty on demand a magistrate may realise the amount as a fine and pay it to the Railway administration

An alternative model is provided by the Public Demands Recovery Act under which a certificate may be issued and executed by the Certificate Officer after hearing objections, if any, leaving it open to the Certificate debtor to go to the Civil Court in case he contests his liability to pay

On these lines I should suggest the omission of the clauses 6-9, 13-18, 20-26 and substitute in their place one or the other of the following alterations —

I.

"*Clause 6* —(*1*) Whoever sells or for the purpose of sale exposes or keeps tobacco in contravention of section 4 shall be liable to pay on demand by an excise officer authorised in this behalf by any general or special order of any Excise Officer not below the rank of an Inspector of Excise in charge of a district, a penalty hereinafter in this section mentioned, in addition to the prescribed license fee payable by him unless he has taken out a license already

Section 113 Railways Act

(*2*) The penalty referred to in sub-section (*1*) shall be—

(*a*) Where the person does not hold a license granted under section 5, a sum equal to twice the amount of the license fee payable by him under the rules,

(*b*) Where he holds a license under section 5 but has acted in contravention of the terms of the license, a sum equal to the amount of the license fee payable by him

(*3*) If such person fails or refuses to pay the amount payable by him under this section on demand by an Excise Officer authorised as hereinbefore provided, the sum payable by him shall, on application made to any Magistrate by any Excise Officer authorised in this behalf, be recovered by a Magistrate from him as if it were a fine imposed by the Magistrate on the person charged with the same

Clause 7 —(*1*) If any person fails or refuses to pay the amount demanded from him under section 6, and there is reason to believe that he would abscond or his name and address are unknown or he refuses on demand to give his name and address or there is reason to believe that the name or address given by him is incorrect any excise officer authorised to demand such payment, or any Police Officer or other person that such excise officer may call to his aid may, without warrant or other authority, arrest him

Railways Act Section 132

(*2*) The person arrested shall be released on his giving bail, or if his true name and address are ascertained, on his giving a bond without sureties for appearance before a Magistrate when required

(*3*) If the person cannot give bail or his true name and address cannot be ascertained, he shall, without the least possible delay, be taken before the nearest Magistrate having jurisdiction "

II.

The second alternative which I first placed before the Select Committee which followed the same outline of the Certificate procedure minus the appeal to the Civil Court was as follows —

"*Section 6* —Whoever sells, exposes or keeps for sale tobacco in contravention of section 4 shall be liable to a penalty equal to twice the amount of the license fee payable by him, in addition to the fee payable if not paid by him

Section 7 Whenever a Collector, Excise Commissioner or a Superintendent of Excise is satisfied on the report of an Excise Officer or otherwise and upon making such further investigation as he may deem fit that any person has sold or for the purpose of sale exposed or kept or is selling or for the purposes of sale is exposing or keeping tobacco in contravention of section 4 within the jurisdiction of such Collector or within the local area over which the Commissioner of Excise or Superintendent, as the case may be, has authority, he may make an order calling upon such person to pay the penalty payable under section 6 together with the prescribed license fee if not paid by him, and authorise any excise officer to execute the order

Any person against whom an order for payment has been made shall, on payment of the sum ordered to the officer executing the order be entitled to be granted a license under section 4 for the period covering the date of the offence

Provided that any person against whom such an order has been made shall have the liberty, notwithstanding that he has paid the amount, to apply to a Magistrate having jurisdiction in the local area for a refund of the amount so paid by him And, if the Magistrate is satisfied upon the evidence adduced before him that the penalty was improperly levied or that it was, in the circumstances of the case, excessive he may direct that the amount so paid by the offender or such portion thereof as may have been improperly levied be refunded to him

Any amount ordered to be paid under section 7 shall be realisable as a fine under section 386, Cr P Code by a Magistrate having jurisdiction in the local area where the offence has been committed or where the person against whom the order has been made resides or carries on his business"

There can be no question that either of these two procedures would be simpler, less expensive and more convenient to the executive than the one in the Bill Persons improperly charged will, at their choice have the protection provided by trial before a Magistrate While others who have broken the law will be saved the trouble and harassment of arrest, searches trials in distant courts and of the innrite worrying attentions of excise officers by simply paying the penalty

This is my principal ground of attack against the scheme of the Bill Subject to this I object to the clauses in the following particulars -

Clause (1)—The duration of three years in sub-clause (3) should be from the date of the commencement of the Act The clause as drafted means that the Bill will cease to operate in different areas on different dates which is unjustified

Clause (2) (1) (ii) — "Such other officer etc " should be omitted and "Additional Collector" substituted in its place

Clause 3—In my opinion sub-clause (2) should be omitted

Clause 6 —The maximum fine of Rs 100 is out of all proportion to the needs of the case It ought not to exceed twice the amount of the license fee

Clause 9 —The issue of a search warrant is a far too harassing process for the insignificant object in view If this is at all retained the warrants ought to be issued by a competent Magistrate and not by an Excise Officer

Clause 12 The power to seize tobacco is uncalled for

Clause 13- The issue of warrant for arrest of a person believed to have committed an offence is unnecessary It would be enough if the offences under this Act are treated as summons cases under the Criminal Procedure Code where warrant could issue only if the offender fails to appear on summons In any event a warrant of arrest should not be issued by any other than a Magistrate having jurisdiction

Clause 17 —The incorporation of sections of the Criminal Procedure Code which are designed for the investigation of cognisable offences seems to have been done without much thought Section 164 (relating to recording of confessions) which is one of such sections would seem to be singularly *malapropos* Sections 165 and 166 which authorise the Police Officer to make a search are also wholly inapplicable to offences under this Act and may be an instrument of harassment Section 167 which provides for the remand of a person in custody beyond 24 hours cannot be made applicable to an offence in respect of a maximum sum of Rs 6 Sections 168, 169 and 170 are similarly absurd in their application to the offences under this Act

The simpler procedure on the lines of Section 132 of the Indian Railways Act ought to suffice in a case of this character Sections 169 and 170 seem to be wholly superogatory in view of sub-clause (4) of clause 17

Clause 18.—It is extraordinary that the bail should be required for attendance before an investigating officer. The Criminal Procedure Code requires the bail to be for attendance before a Magistrate when required. It should be the same here.

The investigation for these offences cannot possibly be elaborate as in a case of any cognisable offence. To authorise Excise officers to require supposed offender to attend at a protracted investigation would give them powers of harassment which may be easily abused.

Clause 20.—The provision for taking cognizance on suspicion is novel. Suspicion may suffice for arrest or to start an investigation but not for starting a prosecution.

If cognisance on the Magistrate's own knowledge is retained section 191, Criminal Procedure Code, should apply.

Clause 21.—It is inconceivable why when a person refused or fails to give bail he should be forwarded to an investigating officer and not to a Magistrate.

Clause 25.—Twenty-four hours is too long a time for authorised detention in the case of such trivial offences. Twelve hours ought to be the limit.

Minute of dissent by Rai Sahib Panchanan Barma, M.L.C.

Clause 1 (3).—(*a*) A comma should be inserted after the words "three years only" and before the words "from the date" to make the meaning clear and to draw pointed attention to the intention that the period intended is three years and no longer.

(*b*) At the end of the sub-clause (3) after the words "in any area", the words "with respect to any kind of tobacco mentioned in the Schedule" should be added.

In the districts or in the parts of districts where tobacco is grown, any restriction to some kind of sale of leaves or stalks of tobacco grown, may do much harm to the cultivators of tobacco. The tobacco growers should be left free to grow their tobacco and sell their tobacco grown by them in any way they like. Any restriction to it will injuriously affect them. If the Act operates with respect to any kind of tobacco other than leaves and stalks locally grown, the cultivators of tobacco may go on doing their work unaffected by any outside interference from the excise officers.

It should be made clear that the Act operates only for 3 years from the date of its commencement in the province of Bengal as a whole. As the Bill is drafted, the duration of the Act in the province of Bengal remains indefinite. The operation of the Act in any particular area is restricted to 3 years only from the date of its coming into operation in that particular *area*. So by application of the Act on a different date to a different area its operation may be extended over 33 years which is not intended.

Clause 3 (1).—(*a*) The meaning of the words "within forty eight hours" should be made clear. Within the period of the whole of a year a particular person, may within a particular period of forty eight hours sell to a particular person that quantity of particular kind of tobacco which by the definition, may make him a "whole-sale dealer". Another person may make such sales repeatedly during the year. It should be made clear who is the person intended here.

(*b*) It should also be made clear whether a person may be "wholesale dealer" with respect to one kind of tobacco and "retail sale dealer" with respect to another kind of tobacco.

(*c*) It is to be determined also whether one license may cover sale of all kinds of tobacco.

(*d*) If a person is to take different licenses for selling different kinds of tobacco the burden of taxation on him will be very heavy, specially on small dealers.

Clause 4, first Proviso.—(*a*) Growers of tobacco "by labour paid in cash or in kind" are exempted by this proviso. But this proviso, as it stands, at present, cannot be taken to mean, that the *adhiars* or *bargadars* of tobacco who take a share of the produce for their labour in growing tobacco are exempted. The intention was to exempt the *adhiars* and *bargadars* who are certainly "growers of tobacco", though in another land, but in the interest of the owner of the land and of the *adhiar* or *bargadar* himself. The *adhiar* or *bargadar* is certainly the grower of tobacco of the first rank. The *adhiars* or *bargadars* of tobacco are partners in the business of tobacco. The owner of lands supplies the capital, *i e*, the land and the *adhiar* or *bargadar* supplies the labour and they share the produce, or profit. So a clear provision should be made describing or defining *adhiars* or *bargadars* of tobacco as *growers of tobacco*.

(*b*) The members of the tobacco grower's family are also tobacco growers. They should be clearly exempted.

(*c*) During the tobacco season, sometimes two or more tobacco-growers sell their respective tobacco, join the money obtained by the sale of tobacco as capital and purchase and sell tobacco for profit. This is partnership business or joint stock company business in embryonic stage. Such business in embryonic stage should be encouraged to develop. At this time of economic distress it will help the cultivators who are very hard hit to get some relief for such as purchasing some cloth, etc with the profit so gained. By way of such relief being granted to them and by way of encouraging them

to develop their idea or capacity of doing partnership or joint-stock company business the cultivators doing such sort of business, as mentioned above, should be exempted, if anything more cannot be done, from taxation This may well be done under the second proviso to clause 4

The Bill makes no provision for the specific amount of fee to be imposed on dealers of tobacco in regard to a wholesale or retail license, and what kind of tobacco This leaves my mind dubious as to the amount which is intended to be imposed on different kinds of tobacco licenses by the Government In this dubious state of mind, I cannot form any judgment as to what I should advise

Minute of dissent by Maulvi Tamizuddin Khan, M.L.C.

I am opposed to the principle of the Bill In my opinion the present time is highly inopportune for a taxation measure like this

Minute of dissent by Maulvi Abul Kasem, M.L.C.

I sign the report subject to the following minute of dissent --

In my opinion the license fee for a retail dealer in rural areas should be Re 1 a year, and that for the urban areas Rs 4

Minute of dissent by Mr. K. C. Ray Chowdhury, M.L.C.

I do not object to the principle of taxing low-priced tickets of admission to the cinemas, but favour the idea of reducing the tax from half-an-anna to quarter-of-an anna on tickets of admission the cost of which exceeds three annas but does not exceed four annas. This idea is based on the simplest of economic maxims of taxation namely capacity to pay. Among those who patronise cinemas as recreation are a large body of working class people. They cannot afford more than three or four annas for admission out of their fixed wages, which are in these days of depression, at its minimum. It is generally admitted that cinemas provide healthy counter-attraction to those workmen who otherwise spend their leisure on drink and dissipation and gambling. This applies remarkably to jute mill hands who are working only four days a week. I am told that there is appreciable falling-off in sale of intoxicants in Howrah, since the opening of cinemas there. The habit of drinking country liquor and toddy among working class people is also falling in Kosba, Dhakuria and adjoining villages after the opening in January last of the "Aleya" Cinema, near Ballygunj station. From the point of view of new industrial development, several indigenous companies have cropped up for production of cheap Indian films which attract the working classes, specially, if the plot is a religious or mythological one. They are already handicapped by heavy duty of raw films. The reduction of one pice on the lowest priced tickets of three and four annas will, according to estimates supplied to the Committee, cause a small shrinkage in revenue of about Rs. 12,500 from 2 lakhs, the estimated yield of the proposed tax, but it is a good deal of money payable by the poorest class of cinema-goers. Rs. 12,500 represents an annual sale of 800,000 three and four-anna tickets. I fear even a pice tax, instead of two pice as proposed in the Bill, will even adversely affect sale of these tickets and will naturally jeopardise the position and prospects of this young film industry which employs a large number of educated young men and female artists.

Minute of dissent by Mr. P. Banerji, M.L.C.

I cannot but utter a strong protest against the imposition of duty on the four-anna ticket in the cinemas, etc. It is regrettable that this will actually fall on the poorest of the poor to whom even four annas is a very big amount to spare for a harmless recreation. If this duty like the excise on wines, is meant to decrease the sale of commodity, i.e., decrease the people going to cinemas, I would welcome it, if it is proved that the cinemas are dangerous for society, but as it has been accepted that it is the most harmless of the recreation of the poor, I cannot find any justification for this duty.

The disadvantage of any small increase in taxation must be counterbalanced by the advantage to the community of a further small increase in public expenditure in every direction but I find that this direct taxation is a very harmful and dangerous precedent in taxing the poor. An individual must adjust his expenditure to income and naturally shall be forced either to decrease his visits to the cinemas or shall try to increase his income. The labourer as is well known cannot increase his wages and thus is in an unhappy position as like the Public Authority he cannot adjust income to expenditure. The reason that a higher priced seat is bearing the taxation is no ground that the poor can also bear it. For instance an individual having a monthly income of Rs. 500 or more does not spend more than 12 per cent. even if he takes a two-rupee ticket daily but a poorly paid wage-earner whose income is hardly eight annas a day has to spend about 15 per cent. if he chooses to spend only once a week in this harmless pastime. In fact it is a very high tax on people with slender resources. I want to utter a note of warning that the result of this taxation will be very dangerous for cinemas, specially to Bengali and Indian owned cinemas, as the four-anna and eight-anna seats bring a stable revenue to them. The Bengali film-producer will be most hard hit because his films can be shown only in Bengal unlike the English and Urdu and Hindi films which are exhibited all over India. The film and the cinema industry is the only industry in which the proverbial shy capital of the Bengalee has speculated against all odds and if this also turns out to be a losing venture, it will spell disaster for Bengalee capital.

I would welcome if the Government stop the issue of complimentary tickets in cinemas except under very special circumstance for which records must be kept by cinemas, as the issue of complimentary tickets decreases the sale of higher priced tickets and thus the Government loses the duty to a considerable extent. The holder of a complimentary ticket must pay 25 per cent. of the face value of the seat for which the pass is issued as amusement tax.

The profiteering by middlemen on sale of any cinema tickets as distinct from the cinema proprietors or their recognised agents must be stopped.

In Bombay even, there is no amusement tax on four-anna tickets, in spite of the fact that in Bombay the labour gets higher scale of wages than in Bengal, and in Madras four-anna tickets are exempted from amusement duty.

STATEMENT OF OBJECTS AND REASONS

Under the provisions of the Cinematograph Act, 1918, all films intended for public exhibition in British India are subject to censorship The censorship is however confined to the film itself and does not extend to the advertising matter, used in connection with the exhibition of the film, which is often more objectionable than the film advertised In paragraph 249 of their Report, the Indian Cinematograph Committee recommended that action should be taken to bring posters used in connection with the exhibition of cinematograph films under control The desirability of taking action in this matter has become more evident with the lapse of time and an examination of the question in consultation with Local Governments has made it clear that steps should be taken to amend the Cinematograph Act so as to provide for the censorship of all pictorial representations intended for use as advertising matter in connection with cinematograph films The Bill is intended to provide for the amendment of the Act accordingly

CALCUTTA, THE 26TH MARCH 1935

RESOLUTION—No 2190M

Minister-in-charge The Hon'ble Sir Bijoy Prasad Singh Roy, Kt

By Government resolution No 836M, dated the 26th February 1934, the Subdivisional Officer of Serampore was appointed under section 550 of the Bengal Municipal Act, 1932, to be in charge of the Assessment and Collection Departments of the Kotrung Municipality until the end of the year 1934-35 As the quinquennial revision of assessment of the municipality has already been undertaken by the Subdivisional Officer, Government consider it desirable that the Subdivisional Officer should remain in charge of the two departments for three months more so that he may complete the assessment after considering applications for review of assessment received after the issue of the first notice of demand

2 In view of the above consideration Government called upon the Municipal Commissioners, under section 550, sub-section (*1*) of the Bengal Municipal Act, to show cause why the period of appointment of the Subdivisional Officer should not be extended by another period of three months In reply, the Municipal Commissioners have agreed to the action proposed to be taken by Government without prejudice to the competency of the present Municipal Board to take up the review work in a fair and impartial manner

3 In exercise of the power conferred by section 550, sub-section (*2*) of the Bengal Municipal Act read with section 22 of the Bengal General Clauses Act, the Government of Bengal (Ministry of Local Self-Government) are accordingly pleased to appoint the Subdivisional Officer of Serampore to be in charge of the Assessment and Collection Departments of the municipality for a further period of three months with effect from the 1st April 1935

STATEMENT OF OBJECTS AND REASONS

1 The Income tax Act was for the first time enacted in 1886, when it was said that a sum of about a crore of rupees was requireed owing to the deficit Budget created by the unusual outlay on the Burmese War and the sudden depreciation of silver The tax was intended to be a temporary one But it has since remained and now realizes over twenty times that amount Similarly, the super tax levied as a war measure has been made permanent But the procedure for the levy of both is antiquated and summary and places an undue power in the hands of the assessing authorities who have been given the final right of hearing the so called appeal of the assessee

2 Income and super tax is more appropriate to creditor countries and to those in which commercial and industrial enterprise has led to the accumulation of capital from which the State may justly claim a share But in a country primarily agricultural in which capital is naturally shy, and commercial and industrial enterprise comparatively recent and in a state of infancy, the State should be loth to tax at least over tax the circulation of capital, but this is now possibly a counsel of perfection

3 The intention of this Bill is, therefore, merely to remove the most glaring of defects in the method of assessment and its control leaving a future reformed rectifying the obvious wrong of a double super tax and other anomalies from which the payers of income tax suffer

4 For the present it is intended to bring the assessors under some popular and judicial control and partially redress the just major grievances of the assessees

It is hoped that the Bill will receive general support and in some measure ameliorate the harshness and rigour of a taxing measure whose unpopularity has been pronouncedly increased by the mode and manner of its administration

NOTES ON CLAUSES

Clause 2—In England the collecting agency is an independent body of patriotic citizens who levy the tax and hear appeals from the assessor's valuation and are generally entrusted with the administration of the Act the result being that the tax odious though it is, does not gain in its odiousness by its administration by the very persons interested in its collection

(2) Under S 57 of the English Tax Act, 1918, now in force, the income tax is levied by the commissioners of Inland Revenue whose number ordinarily varies from 3 to 7 (S 59) but which may be increased to 14 (*Ib* S 59) They are appointed for specified cities or divisions and possess the sole power to assess, collect and levy the income tax (*Ib* S 64) and hear appeals against assessment (*Ib* S 133) Such commissioners are generally drawn from well to do classes For special cases special commissioners are appointed and they possess the same right as general commissioners (*Ib* S 67)

The general commissioners appoint assessors for one year (*Ib* S 76), and the collector of taxes (*Ib* S 80)

(3) If the English procedure were followed, the whole Act would have to be recast It is not the intention of the present Act to do more than introduce an element of impartibility in the assessment of income tax by providing that the assessor shall act with the concurrence of three or more assessors and that all appeals against his assessment shall lie to a Court unconnected with the assessing department This is the barest justice to the assessee who is entitled to much more and not anything else

(4) The English law allows three appeals against an assessment—*first* to the special commissioners, *secondly* to the Recorder or *County Court* Judge and *thirdly* to the High Court (SS 147—149) Under the Bill, if passed, provision is made only for a single appeal, but the High Court has been given the general power of revision which it possesses in all civil and criminal cases In England the appeals lie to special commissioners The Bill embodies the general spirit of the English Act, though it does not adopt its machiney

Adaptations of the Indian Income tax Act, 1922, to provide for the summary assessments of income-tax on total incomes of less than Rs 2,000

1 The Income tax Officer may, save where he has served a notice under sub section (2) of section 22 of the Indian Income tax Act, 1922, make a summary assessment of the income of an assessee to the best of his judgment and shall serve on the assessee a notice of demand in a form to be prescribed by the Central Board of Revenue, and such notice shall be deemed to be a notice of demand under section 29 of that Act

2 Any assessee in respect of whom such summary assessment has been made, may within thirty days of receipt of the notice of demand, make an application to the Income tax Officer for the cancellation or revision of the assessment, and the Income tax Officer shall after examining any accounts and documents and hearing any evidence which the assessee may produce, and such other evidence as the Income tax Officer may require, determine, by order in writing, the amount of the tax if any, payable by the assessee, and such determination shall be final

Provided that, if any assessee making such application files therewith a return of his income under sub section (2) of section 22 of the Indian Income tax Act, 1922 the application shall be deemed to be a return under that sub section and shall be dealt with accordingly

3 A copy of an order under paragraph 2 shall be served on the assessee to whom it relates and shall be deemed to be a notice of demand under section 29 of the Indian Income tax Act, 1922

4 The above procedure shall apply also to the assessment and collection during the financial year 1935 36 of incomes of Rs 1,000 and upwards and less than Rs 2,000 which have escaped assessment in the financial year 1934-35

STATEMENT OF OBJECTS AND REASONS

The object of this Bill is to continue for a further period of one year certain duties and taxes imposed under the Indian Finance Act 1934, which would otherwise cease to have effect from the 1st April 1935 to reduce the income tax on incomes of Rs 1,000 or upwards but less than Rs 2,000, to reduce the surcharges on income tax and super tax, to reduce the import and excise duties on silver, and to abolish the export duty on raw skins

2 Clauses 2 and 4 provide for the continuance for a further period of one year of the existing provisions regarding salt duty and inland postage rates The duty of Rs 1 4 0 per maund on salt remains liable to the additional duty imposed under Section 5 of the Indian Finance (Supplementary and Extending) Act, 1931

3 Clause 3 provides for the reduction of the import duty on silver from five annas per ounce to two annas per ounce and for the abolition of the export duty on raw skins

4 Clause 5 provides for the continuance for a further period of one year of the existing rates of income tax and super tax with the following alterations —

(a) The rate of income tax when the total income is Rs 1,000 or upwards but is less than Rs 1,500 is reduced from two pies to 1½ pies,

(b) The rate of income tax when the total income is Rs 1,500 or upwards, but less than Rs 2 000 is reduced from four pies to 2½ pies, and

(c) the surcharges on income tax and super tax are reduced from one fourth to one sixth

As it is proposed to retain the tax on incomes of Rs 1,000 and upwards but below Rs 2,000 per annum at a reduced rate clause 5(4) provides for the continuance of the existing procedure for the assessment of such incomes which has already been approved by the Legislature

Clause 5(5) provides that incomes from salaries and interest on securities should be finally taxed for purposes of income tax and not super tax at the rates applicable to a total income of like amount which was in force at the time when the taxation at source on these incomes took place, otherwise salary earners for example will be able not only to secure the advantage of reduced rates during 1935 36 but also to obtain a refund of part of the tax which had been deducted from their salaries during 1934 35 It also makes a similar provision for purposes of refunds under sub section (1) or sub section (3) of section 48 in respect of dividends declared in the year ending 31st March 1935 or of payments made in the said year of salaries or of interest on securities These provisions form the counterpart of a concession that has been allowed from time to time in the past when rates of income tax were being enhanced

5 Clause 6 provides for the reduction of the excise duty on silver corresponding to the reduction in import duty

6 The reasons for making the above changes have been fully explained in my budget speech

Retrospective effect.

3 The amendments made by section 2 shall have effect in respect of any proceedings arising out of any suit instituted on or after the first day of February, nineteen hundred and thirty five.

STATEMENT OF OBJECTS AND REASONS

The Royal Commission on Labour drew attention to the indebtedness prevailing among certain classes of workers, and expressed the view that this was due mainly to the credit enjoyed by them and the facilities afforded to creditors by the law relating to the attachment of salaries. With a view to reducing credit the Commission recommended that wages and salaries of workmen receiving less than Rs 300 a month should be entirely exempted from attachment. Enquiries made by the Government of India in consultation with Local Governments afford justification for action on the lines suggested by the Commission and in particular reveal a serious state of indebtedness among certain classes of Government employees. The Government of India therefore propose to amend section 60 of the Civil Procedure Code to provide—

(1) that salaries, not exceeding Rs 100 a month, of all workers should be totally exempt from attachment,

(2) that the pay of servants of Government, Railway Companies and local authorities getting more than Rs 100 a month should be exempt to the extent of the first Rs 100 and one half of the remainder, and

(3) that while the attachable portion of the pay of servants of Government, Railway Companies and local authorities should remain as at present liable to continuous attachment the period of attachment should be restricted as follows, *viz*, that after a debtor's pay has been attached for a total period of two years (in one or more periods) no further attachment should be possible in favour of the same decree or in favour of any other decree until twelve months have elapsed.

The Bill seeks to give effect to these proposals. It also takes away the privileged position of Co-operative Societies under the proviso to sub-clause (*iii*) under clause (*i*) of the proviso to sub-section (*1*) of section 60 of the Code as in the opinion of the Government of India it is unnecessary to continue that privilege.

2. Under sub-clause (*h*) of the proviso to sub-section (*1*) of section 60 of the Code of Civil Procedure, 1908, leave allowances if less than salary are exempt from attachment, but under sub-clause (*i*) leave allowances, if equal to salary on duty, are liable to attachment. Since the introduction of time-scales of pay in the Services, this has created an anomalous position for if an officer drawing pay on a time-scale proceeds on leave before reaching the maximum of the scale, the whole of his leave allowance being less than his salary on duty, is exempt from attachment, while if he goes on leave after drawing the maximum pay of the scale for over a year, the whole of his leave allowance, being equal to his salary on duty, would be liable to attachment. It is accordingly proposed to place leave allowances and salary on duty in exactly the same position as regards attachment. At the same time the Bill gives to the Governor General in Council power to exempt certain allowances from attachment, the object being to enable him to exempt certain compensatory allowances granted for specific purposes.

3. The Bill also provides that the amending legislation shall apply to all suits instituted on or after February 1, 1935.

STATEMENT OF OBJECTS AND REASONS

The object of this Bill is to provide for the employment of Indian tonnage in the coastal traffic of British India and of the Continent of India This Bill is intended to serve as a powerful aid to the rapid development of an Indian Merchant Marine Several attempts made in this direction in the past have all practically failed, owing, it is believed, to the existence of powerful non Indian interests in the coasting trade of India There can be no doubt that the growth of an Indian Merchant Marine would prove a powerful factor in the employment of Indian talent in various directions in a manner calculated to advance the national interests of India

This Bill was introduced in the last Assembly by Mr Sarabhai N Haji, M L A, and was referred to a Select Committee whose report was presented to the House The Bill then lapsed owing to the dissolution of the Assembly The draft of the Bill now submitted is the same as was approved by the Select Committee
